

My family really enjoys listening to our K-Love station 106.7. It is a safe station for families to listen to together. My children love it and sing along. We love that it is commercial-free and have been providing financial support to keep it on the air in our area. The slogan for K-Love is "Positive, Encouraging, K-Love" and it is that. A LPFM station that would interrupt K-Love's signal would most likely be detrimental to our community since it would most likely not be positive and encouraging or anything that I would allow my children to listen to. K-Love provides a service to our community unlike any of the other stations around. Please, don't mess with our K-Love. ~The Schmidt Family
